3. Superintendents shall have charge of all matters in the respective departments, shall receive and attend the proper arrangement of everything intended for exhibition therein; shall attend the judges in their examination; shall see that the program, as far as it involves their several departments, is faithfully carried out; and at the close of the exhibition shall authorize the removal of exhibits in their respective departments as circumstances will justify.

7. ALL PREMIUMS NOT CALLED FOR OR CLAIMED BEFORE THE FIRST DAY OF JANUARY SUCCEEDING THE FAIR SHALL BE DEEMED FORFEITED TO THE SOCIETY.
8. A police force will be on duty to guard the interests of the exhibitors and patrons of the fair, but this Society will not assume any responsibility or pay any losses or damage from fire, theft or violence. We shall not be held responsible for loss or damage to exhibits or any property whatsoever.
9. The public is notified that the law gives the Association "Full jurisdiction and control of Fair Grounds, and of all streets, alleys and other grounds adjacent to the Fair Grounds."

15. Each exhibitor agrees to accept liability for any theft of, damage to, or loss of exhibitor's animals or property while such animal or property is located upon the exposition grounds. The exhibitor also agrees to indemnify the Ozaukee County Agricultural Society from all costs or liability for any loss of any kind occasioned or caused by the exhibitor, his agents, employees, animals or property. The Ozaukee County Agricultural Society should be made a co-insured on any liability policy carried by exhibitor for protection against the above described liability.

The foregoing rules and regulations were adopted by the Board of Directors of the Ozaukee County Agricultural Society.

WIS. STATE DEPT. OF AGRICULTURE DIVISION OF ANIMAL HEALTH

2010 COUNTY/DISTRICT FAIRS ANIMAL HEALTH REQUIREMENTS

Exhibitors at County and District Fairs are required to comply with all of the statutory and regulatory provisions of the State of Wisconsin relating to animal health. **ALL EXHIBITORS MUST COMPLY WITH THE PROVISIONS SET FORTH BELOW.**

If a fair or livestock exhibition in this state lasts for more than 24 hours, the sponsors shall appoint a licensed veterinarian to conduct a daily inspection of all livestock at the fair or exhibition. The Veterinarian shall review all records and test results required under ATCP 10.87. If a fair or livestock exhibition lasts less than 24 hours, all records and test results required by ATCP 10.87 shall be reviewed by a licensed Veterinarian or by the show chairperson. Records shall include exhibitors name and address, identification of animals exhibited including number, type and description, documentation to show compliance with disease testing and other health requirements, and the livestock premises code, if any, of the premises from which the animals originate.

This is a summary of DATCP animal health requirements for exhibition only. These requirements may change due to animal disease emergence in Wisconsin or other states, for example, vesicular stomatitis in the western states. It is always advisable to check with the **Division of Animal Health (608-224-4874)** for the most recent health requirements when planning to exhibit animals. **Animals meeting exhibition requirements may not meet all import or movement requirements for other purposes.**

The fair and WDATCP have the right to make such tests and examinations as may be necessary to determine the disease status of any animal exhibited and to exclude or remove any animal afflicted with or suspected of being afflicted with a contagious or infectious disease. If at any time any animal shows any evidence of a contagious or infectious disease, it shall be immediately removed from the exhibit and slaughtered or quarantined as directed by the Department.

CATTLE AND BISON

Cattle affected with ringworm, warts, mange or scab may not be exhibited, unless the Veterinarian in charge determines the ringworm lesions or warts are inactive and incapable of transmitting the disease. Any cattle found with ringworm, warts, mange or scab that are active shall be removed from the premises of the fair.

There are no test or health document requirements for Wisconsin cattle. However, fair management is responsible for maintaining records of persons who have exhibited at the fair, the livestock premise code, if any, and the identification of animals shown for five years.

Acceptable forms of animal identification for breeding animals are:

1. An official metal ear tag
2. A breed registration number
3. Breed registration tattoo
4. Other identification approved by the department

For steers, either an official identification as listed for breeding animals or the eartag applied at weigh-in may be used. Entry blanks submitted and signed by exhibitors, including one of the forms of identification listed above will fulfill the exhibitor requirements.

SWINE

ALL swine shall be accompanied by a Wisconsin Intrastate Movement Certificate stating that the herd of origin has been inspected on the farm within 30 days prior to the exhibition and no apparent disease has been present in the herd for the past 30 days. The certificate must also include all required test documentation.

SHEEP

Sexually intact sheep of any age, and all other sheep 12 months of age and older, must be identified with official scrapie ear tags or other official individual identification. Sexually intact sheep exposed to scrapie will not be allowed for exhibition.

GOATS

Sexually-intact goats of any age, and all other goats 12 months of age and older, must be identified with official scrapie ear tags or other official individual identification. Sexually intact goats exposed to scrapie will not be allowed to exhibit.

EQUINE

All equine animals shall be accompanied by documentation of a negative Equine Infectious Anemia (EIA) test conducted within the current calendar year and which clearly identifies the equine by registration number, lip tattoos or freeze brand, or a complete description of the equine. Documentation must either be an original laboratory report VS 10-11, a USDA-approved electronic test form, a Global Vet Link (GVL) equine infectious anemia test electronic form, or a certificate of veterinary inspection with the negative EIA results listed.

LLAMAS AND EXOTIC RUMINANTS

There are no requirements.

POULTRY

All poultry and waterfowl must originate from flocks designated as U. S. Pullorum-Typhoid Clean or NPIP Affiliate flock and accompanied by a NPIP certificate or originate from a Wisconsin Tested Flock or Wisconsin Associate Flock and be accompanied by an enrollment certificate provided by the department certifying that they are a Wisconsin Tested Flock or Wisconsin Associate Flock. Sexually mature birds that do not meet these requirements may qualify with documentation of a negative test for Pullorum-typhoid (and Mycoplasma gallisepticum for turkeys) conducted within 90 days prior to arrival at the exhibition, and be identified with a wing band or leg band. Turkeys that are not going directly to slaughter may not be commingled with other poultry. This may be accomplished by separate housing or controlling the air flow or placement and spacing to prevent movement of M.gallisepticum from other poultry to the turkeys. The fair veterinarian should make this decision.

FUR-BEARING ANIMALS

Rabbits and other fur-bearing animals showing evidence of specific disease cannot be exhibited at any fair. If, at any time, any animal in the group shows evidence of a contagious or infectious disease, it shall be immediately removed from the exhibit and slaughtered or quarantined as directed by the Department. Wisconsin recommends that all fairs require a Premises Registration Code. The Premises Registration Code is to be listed on the Fair Entry Form.

DOGS AND DOMESTIC CATS

Dogs over 5 months of age must have proof of current rabies vaccination.

CIRCUS, RODEO, RACING AND MENAGERIE ANIMALS

All shall have a permit from the department, and shall be isolated from all non-circus, non-rodeo, and non-menagerie animals at the exhibition. They must meet current import requirements. Phone 608-224-4874 for a permit application. Fair managers: Please note that this requirement applies to all animals belonging to midway attractions and rodeos.

FAIR VETERINARIAN RESPONSIBILITIES

The Wisconsin Department of Agriculture Trade and Consumer Protection establish rules that fairs must follow to reduce the risk of animal health concerns. One of those requirements is:

If a fair or livestock exhibition in this state lasts for more than 24 hours, the sponsors of the fair or exhibition shall appoint a licensed veterinarian to conduct a daily inspection of all livestock at the fair or exhibition. For a complete listing of the rule, please see the health requirements section of the fair book.

The veterinarian appointed by the fair will be on the grounds each day. Their schedule depends on their other responsibilities and is usually not at a set time each day. When the veterinarian comes to the fair, they will check with the Fair Office to see if there are any concerns or animals to check. They will then walk through the livestock areas and observe animals for any concerns.

If you have an animal that you would like the veterinarian to check when they are on the grounds, please leave the information with someone in the Fair Office. It will then be provided to the veterinarian on the next visit. The veterinarian will check your animal. However, if any treatment is administered you are responsible for the costs of the treatment.

If an animal needs immediate attention it is the responsibility of the exhibitor to contact their own veterinarian for any attention or treatment.

If you have any questions, please speak to the superintendent of your department or someone at the Fair Office.
